

POSITIVE IMPACT INTERNSHIP 2021

BRAZIL - October 4th to November 15th, 2021

Going **beyond** the internship.

Did you know that 9 out of 10 people consider meaningful work more important than the salary¹?

What do you think about an international internship experience with social-impact companies that really make the world a better place?

More than an internship, this is **a way to learn from people who really do things with a positive impact for the world.** We believe that anything you do, can be done positively. That's why we go **beyond**.

MULTICULTURAL TEAMS

The host companies are all based in Brazil. The teams will have from 5-7 students with at least some Brazilian students each. We believe that different views and culture brings diversity and different perspectives of a problem. Besides that, learning how to work on a multicultural team is one of the learning objectives of the program.

INTERACTIVE APPLIED PROJECT

During the course of the 6-weeks, you will be in direct contact with the company representatives and will deliver suggestions that can be implemented by the company.

STUDENT-CENTERED LEARNING

Our sessions are structured to make students play a central role in the learning process. Our team will act as mediators, bringing out the creative thinking and singularity of each student. Diversity of thought, team building and the ability to share experiences will be key in the process of finding solutions.
